

Network Change Notice Cincinnati Bell Telephone

SHORT TERM PUBLIC NOTICE of NETWORK CHANGE UNDER RULE 51.333(a)

Public Notice #:	14-004		
Title:	Fairfield, Ohio - Copper Replacement		
Issue Date:	07/25/2014	Implementation Date:	On or after 02/01/2015
Carrier's Name:	Cincinnati Bell Telephone Company LLC		
Carrier's Address:	221 East Fourth Street Cincinnati, OH 45202		
Contact:	Mike Wolf Director Network Planning - Access & Outside Plant 221 East Fourth Street Mail Stop: 121-900 Cincinnati, OH 45202 (513) 397-1364 mike.wolf@cinbell.com		
Network Change Summary:			
Cincinnati Bell Telephone ("CBT") will be replacing central office based copper/metallic cable infrastructure in the Fairfield, Ohio (FRFDOHFF) wire center with fiber optic cable systems and remote Digital Loop Carrier architectures.			
Description of type of changes planned:			
CBT is migrating from a copper to a fiber infrastructure. With this migration, copper/metallic facilities originating in the FRFDOHFF central office will be retired from service and removed. Customers will be transitioned to fiber based services and remote Digital Loop Carrier systems. The changes will affect the following areas (Serving Area Cabinets or Fiber Serving Areas):			
SAC/FSA		GPON/VDSL	
5742PL		VDSL	
1495E		VDSL	
6512S		VDSL	
FF Firestone & John Gray		GPON	
5818W		VDSL	

5336SG	VDSL
FF 5595CHA-FDH	GPON
FF Pleasant & Happy Valley	GPON
FF Pleasant & Hunter	GPON
1490JG	VDSL
1500S	VDSL
2600A	VDSL
2H	VDSL
4608ZZ	VDSL
5353D	VDSL
5470N	VDSL
6502ER	VDSL
8591M	VDSL
GRAMON	VDSL
5152B-1	VDSL
FF Bibury & Wessel	GPON
FF Dixie & Camelot	GPON
FF Dixie & Hicks	GPON
FF Pleasant & Wessel	GPON
FF Pleasantdale & River	GPON
FF Resor & Sigmon	GPON
FF River & Tallawanda	GPON
FF Winton & Nilles	GPON
FF Winton & Oak Tree	GPON
FF Yorktown & Chesapeake Way	GPON
FF 6094ARC	GPON
6266ZZ	VDSL
1125S-MDU	VDSL
5050D-Trailer Park	VDSL
6094A-MDU	VDSL

Description of Reasonably Foreseeable Impact of the Planned Changes:	
---	--

After the planned network changes are implemented, loops comprised entirely of copper will not be available between the above referenced central office and customer premises in the wire center. In serving areas fed by fiber facilities to the customer premise, no copper facilities will remain for service. Copper distribution and drop facilities will remain in select serving areas within the wire center where remote Digital Loop Carrier Systems are being deployed. Under both architectures, where feasible, vacated copper facilities will be physically removed and those that cannot be removed will be retired in place and no longer be maintained. Customer services will be transferred to the new infrastructure being placed. To the extent required by applicable agreements and federal law, CBT will offer to requesting carriers a 64kbps voice grade channel over fiber loops that have been deployed where copper was retired.

Description of any changes in prices, terms, or	
--	--

conditions that will accompany the planned change(s):			
Location of Change	CLLI	City	State
	FRFDOHFF	Fairfield	Ohio
